

# Dai Katus

EXPERT IN WEB DEVELOPMENT & BLOCKCHAIN

## Profile

I am an expert in **Web development** and **Blockchain**.

From 2015 I have worked in the famous software companies as **Blockchain developer**, **Software engineer**, **Project manager**.

I provide my customers with the perfect **front end** and **back end** in which **strong fashion** and **business style**, **gorgeousness** and **delicacy** are in harmony.

I have built so much project for that time and I would introduce it here.

- **thunderpick.com** (Cryptocurrency betting site)
- **chainguardians.io** (Cryptocurrency betting site)
- **getmyboat.com** (World boat booking site)
- **ethereummax.org** (DEX)
- **airbnb.com** (Booking site)

My latest company was **NipponFWD** in Japan and there my role was:

- **Blockchain developer**
- **Project Manager**

There I built more **smart contracts** using **ERC-20** and **ERC-721** custom tokens which will work on Ethereum, Binance Smart Chain and I was responsible for building **NFT Marketplace** and created custom tokens using **openzeppelin**, implemented **MetaMask**, **Torus** and **other wallets** to increase user experience.

## Employment History

**Full-stack developer , 4K-Soft, Kyiv**

SEPTEMBER 2015 – JUNE 2017

I have worked as Full-stack developer in this company.

Have been working with Javascript frameworks, PHP frameworks, Database platforms, CSS frameworks, CMS for years, and have many projects where I played as a main developer.

**Project manager, Blockchain Developer, NipponFWD, Tokyo**

JULY 2017 – JUNE 2021

I have rich experiences of building **smart contracts** for a lot of projects on various blockchain networks such as **Ethereum**, **Binance Smart Chain**, **polygon**, **Alorand**, **Solana**, etc.

Especially so far I have mostly kept on **NFT crypto space** like several kinds of games and **NFT marketplace** platforms using **openzeppelin** ERC token standards like **ERC-20**, **ERC-721**, **ERC-1155** tokens you know.

## Education

**Bachelor of Computer Science, The University of Tokyo, Tokyo**

JULY 2012 – JUNE 2015

- Majoring in Computer Science and Technology.
- Top marks in all subjects.
